KEY:

- Sowing indoors, under cover
- Sowing outdoors
- Planting tubers, sets or offsets
- Planting out seedlings
- Harvesting

Future Garden 12 Month Planting Planner

TOP TIPS ALL YEAR ROUND

January

- Protect outdoor plants from frost
- Put feed out for birds

February

- Prep seed beds
- Prune evergreen hedges

March

- Weed & Mulch for the summer (mulch helps retain the moisture in the soil)
- Cut back evergreen grasses
- Sow early seeds indoors to propagate

April

- Deadhead spring bulbs & bedding
- Plant leeks & potatoes

May

- Sow early rhubarb
- Use water butts to collect rainwater for use

June

- Thin out heavy fruit crops
- Harvest early & salad potatoes
- Pinch side shoots on tomatoes

July

- Keep regularly weeding & watering
- Deadhead plants to ensure continued flowering

August

- Harvest veg & sweetcorn
- Prune wisteria

September

- Plant spring flowering bulbs
- Dig up final main crop potatoes

October

- Weed paths
- Harvest squash & pumpkins
- Tie climbers securely to keep safe from winds
- Plant up trees & shrubs before the weather & soil get too cold

November

- Protect plants from frosts
- Prune back trees in prep for the next year
- Clear up & rake excess leaves

December

- Prune birch, vines & fruit trees
