

HYDRO / COCO FEEDCHART

THIS FEEDCHART
IS ONLY A GUIDE

Simple Mixing Instructions

- Tap water E.C. values vary in different areas.

- Always mix additives first.

- Fill reservoir with water.

- Add GrowDog additives to your reservoir, stirring thoroughly between each additive.

- Add Mighty Minerals A, then stir thoroughly.

- Add Mighty Minerals B, then stir thoroughly.

- Check E.C. has reached the desired level. If desired E.C. is not met, add more Mighty Minerals A & B.

- Finally, check and adjust the pH of the nutrient solution.
